Freundeskreis Flüchtlingssolidarität in Solidarität International

Greeting to general meeting, 13/08/2023

Dear friends of the Circle of friends of refugee solidarity in SI,

the SI national representation thanks you for the invitation to your general meeting at Gelsenkirchen.

With your important work in refugee aid and mutual solidarity you stand in urgent protest against the development to the right in refugee policy of EU and the German government.

...

It is groundbreaking that refugees in Germany are taking action themselves to fight – together with people here - for their rights. Your courageous protests before the courts for the recognition of rooms in refugee accommodations as private space or the protest against the shooting of Mouhamed Lamine Dramé by the police of Dortmund, bear witness to this.

Therefore Solidarität International e.V. is proud to have the Circle of Friends of refugee solidarity as a member organisation.

This is a practical expression of our deep conviction that there are no first and second class people. Refugees aren't supplicants, but competent people, capable of a self-determined life.

The SI national representation wishes your meeting many active participants, new ideas and good success.
